

# NOG-IL2 : *In vivo* tumor growth inhibition test with NK cells and CCR4 antibody(L428)

- **hHSC engrafted hNOG-IL2 mouse:**
- Administration of anti-CCR4 antibody to hHSC-engrafted hNOG-IL2 mouse suppressed the proliferation of L428 cells.
- However, in NOG-IL2 mouse not engrafted with hHSC, administration of CCR4 antibody did not inhibit growth.
